Der CHA1214 ist ein AiNETModell fur 12 CDs.Le modele CHA1214 AiNET contient 12 disques.CHA1214 AiNET rymmer 12 skivor.Failure to heed them can result in serious injury or death. Always stop the vehicle in a safe location before performing these functions. Failure to do so may result in an accident. If swallowed, consult a physician immediately. Failure to heed them can result in injury or material property damage. Return it to your authorized Alpine dealer or the nearest Alpine Service Centre for repairing. If this happens, remove the disc from the player and wait about an hour for the moisture to evaporate. Playing a bad disc could severely damage the playback mechanism. Return it to your Alpine dealer or the nearest Alpine Service Station for servicing. Hold the disc so you will not leave fingerprints on the surface. Do not affix tape, paper, or gummed labels to the disc. Do not write on the disc. Do not attempt to load more than one disc. Your player will automatically eject any disc that is inserted incorrectly. If the player continues to eject a correctly inserted disc, push the RESET switch with a pointed object such as a ballpoint pen. When a new disc is inserted into the player and ejected after initial loading, using your finger, feel around the inside of the centre hole and outside edge of the disc.http://belniig.by/public/canon-mini-dv-zr100-manual.xml

- **alpine 9812rr manual, alpine cda-9812rr manual, cda-9812rr manual, 9812rr manual.**

If you feel any small bumps or irregularities, this could inhibit proper loading of the disc. To remove the bumps, rub the inside edge of the hole and outside edge of the disc with a ballpoint pen or other such instrument, then insert the disc again. For routine cleaning, wipe the playing surface with a clean, soft cloth from the centre of the disc to the outer edge. If the surface is heavily soiled, dampen a clean, soft cloth in a solution of mild neutral detergent before cleaning the disc. Using such accessories can cause the disc to be out of standard specifications and may create operational problems. We recommend not using these accessories on discs played in Alpine CD players. Never expose the disc to direct sunlight. Heat and humidity may damage the CD and you may not be able to play it again. For details, see page 1516. The brightness will return to normal as time elapses. The back of the movable display will get very warm under normal operating conditions. This is not a malfunction. Do not touch. There is no need to readjust the tilt angle when the power is turned back on. The back of the movable display will get very warm under normal operating conditions. Do not touch. You can also deactivate the display. Align the groove on the front panel with the projections on the main unit. The tuner will automatically seek and store 6 strong stations in the selected band. They will be stored into buttons 1 to 6 in order of signal strength. The RDS allows you to receive a variety of information such as traffic information, station names, and to automatically retune to a stronger transmitter that is broadcasting the same programme. The "FUNC" indicator only the underlined portion of the "FUNC" indicator for CDA9811R goes out. The "FUNC" indicator only the underlined portion of the "FUNC" indicator for CDA9811R goes out. The RDS stations can be preset in the FM1, FM2 and FM3 bands only. If traffic information is not being broadcast, the unit is set in the standby mode.http://giaynangchieucao.com/userfiles/canon-mini-dv-hdv-1080i-manual.xml

When a traffic information broadcast begins, the unit automatically receives it and the display shows "TRFINFO" for a few seconds and returns to the PS display. When traffic information is received next time, the volume level will be automatically adjusted to the level memorized. The "FUNC" indicator only the underlined portion of the "FUNC" indicator for CDA9811R goes out. If no operation is performed within 5 seconds, the "FUNC" indicator only the underlined portion of the "FUNC" indicator for CDA9811R goes out. If the station being received does not broadcast the traffic information, the receiver automatically tunes in the related station that broadcasts the traffic information when it occurs. You can listen to a programme in the preset programme type as the unit automatically gives priority to the preset programme type when it begins broadcasting, and interrupts the programme you are currently listening. This feature is functional when your unit is set to a mode other than the LW and MW. The initial setting is "NEWS." The "FUNC" indicator only the underlined portion of the "FUNC" indicator for CDA9811R goes out. However, WMA cannot be played back. Do not load more than one disc at a time. A malfunction may result from doing either. Page 3 ENGLISH Contents The CDA9812RX model that appears in this Manual represents the CDA9812RB and CDA9812RR models. the files. The maximum nested folder depth is 8 including the root Sampling rate directory. If you are here, it was rather the case. However, you are not the only person having problems with keeping the operation manual of all household devices. Below are few guidelines regarding how and why you should collect the product manuals. However, we believe that the manuals should include the most important and needed information about Alpine CDA9812RR, not to discourage the user to read. Obviously, if a device Alpine CDA9812RR has multiple advanced functions, we will not avoid a high amount of information in this document. Then, it will be much easier to find it than look through the purchase boxes which have already been thrown away by you or any other of household members. It will be enough to clear the drawer once in a year and throw away any manuals of the devices you do not use anymore. Thus, you can avoid storing any unnecessary documents and keep only those which are valid. You can also download and print the manual Alpine CDA9812RR to place it in your drawer.
