While armed, the system will monitor the doors, trunk, hood, shock sensor, and aux inputs. Page 8 Impact This icon will be displayed if an impact to the vehicle is detected while the system is armed. The remote will beep rapidly while displaying this icon if the impact is hard; this means that the alarm was triggered. If it beeps slowly while displaying this icon, that means that the impact was soft and that the alarm simply gave four warning chirps. Door This icon will be displayed if the door is opened while the system is armed. The remote will beep rapidly while displaying this icon. Page 9 General System Functions The remote transmitter functions have been predetermined and programmed from the factory. Sending Commands When in range, and a command has been sent, the remote pager backlight will illuminate, the remote will beep and the appropriate icon will be displayed. Reservation Mode must be set each and every time you want to remote start a manual transmission vehicle. The purpose of Reservation Mode is to leave the transmission in neutral before exiting the vehicle. IMPORTANT The transmission must be left in the neutral position. The vehicles windows must be rolled up. These outputs can be configured for pulsed, timed or latched settings. Your authorized Firstech dealer can set these outputs up accordingly. The remote will beep twice and the shock sensor icon will illuminate to confirm the shock sensor is off. The remote will beep once and the shock sensor icon will disappear to confirm the shock sensor is on. IMPORTANT Turning off the shock sensor also turns off the optional sensor. The remote will beep once and the 2nd car icon will illuminate to confirm that 2nd car mode is activated. The remote will beep twice

and the icon will disappear to confirm 2nd car mode is off. IMPORTANT 2nd car mode requires the remote to be programmed to a 2nd vehicle that is equipped with the same system. <http://amrithaayurvedhospital.com/userfiles/8051-microcontrollers-hardware-manual.xml>

If you are not using the RPS unlock, following the below procedures to program your secure valet pass code; Timer start mode is used to cool or warm the vehicle automatically without use of the key or the remote. It allows you to configure your timer start feature to check the vehicle's temperature prior to starting. All of these options require programming from your local dealer. Your system has a mode that requires you to keep your remote separate from your key chain. This feature also requires additional labor. All remotes must be coded at the same time. The vehicle's parking lights will flash once with the successful completion of this step. Page 17 Alarm Diagnostic Limited Lifetime Warranty While the alarm is armed, the LED will blink slowly. While the siren is going off, the LED will indicate the specific zone that was triggered. Para disfrutar de verdad los beneficios de este sistema, nosotros recomendamos que usted completamente lea el siguiente manual. Este manual tambien contiene informacion sobre el control remoto de 1 via que pueda ser incluido con su sistema. Page 21 Referencia Rapida Remoto de 2 Vias Primero, abra la cerradura de la tapa de la bateria localizada en la parte trasera del remoto. Una vez abierta, suavemente deslice la tapa de la bateria para exponer la bateria. Con la excepcion del remoto 2WSSRPRO Usa 1 bateria del AA todos los remotos de 2 vias Firstech, requieren de una bateria AAA. IMPORTANTE Este seguro observar la polaridad correcta al instalar la bateria. Mientras armado, el sistema supervisara las puertas, cajuela, cofre, sensor de golpes, y entradas auxiliares. Si cualquiera de estas entradas se activa mientras el sistema se encuentra armado, la alarma se activara. Abrir Cajuela Este icono se desplegara cuando la funcion de liberar cajuela se ha activado. Page 25 Impacto Este icono se desplegara si un impacto al vehiculo se descubre mientras el sistema este armado.

El remoto emitira una senal sonora rapida, mientras despliega este icono, si el impacto es duro; esto significa que la alarma fue activada. Si emite una senal sonora lenta, mientras despliega este icono, significa que el impacto era suave y que la alarma dio cuatro chirridos de advertencia. Puerta Este icono se desplegara si la puerta se abre mientras el sistema se encuentra armado. Page 26 Funciones Generales del Sistema Las funciones del transmisor fueron predeterminadas y se han programado en la fabrica. Enviando Comandos Cuando en rango, y una orden sea enviada, la pantalla del remoto iluminara, el remoto emitira una senal sonora y el icono apropiado se desplegara. El Modo Reservacion debe ponerse cada vez que usted quiera encender su vehiculo de transmision manual a control remoto. El proposito de Modo Reservacion, es dejar la transmision en neutral, antes de salir del vehiculo. IMPORTANTE La transmision debe quedar en la posicion neutral. Estas salidas pueden configurarse para pulso momentaneo, temporizado o fijo. Su distribuidor autorizado Firstech puede preparar estas salidas de acuerdo a sus necesidades. El remoto emitira una senal sonora dos veces y el icono del sensor de golpes iluminara para confirmar que el sensor de golpes esta apagado. El remoto emitira una senal sonora una vez y el icono de sensor de golpes desaparecera para confirmar que el sensor de golpes esta encendido. Page 30 Funciones Avanzadas del Sistema Funciones Avanzadas del Sistema El RPS es una funcion opcional. Page 31 Funciones Avanzadas del Sistema Funciones Avanzadas del Sistema Para programar un tiempo especifico de arranque, utilizado para Opcion 3, realice los siguientes pasos; PASO 1 Encienda Opcion 310III. Opcion programada por el distribuidor El modo de arranque temporizado se utiliza para refrescar o calentar el vehiculo automaticamente, sin necesidad de la llave o el remoto. Mientras activado, el arranque temporizado se activara aunque el remoto este fuera de rango.

Page 32 Funciones Avanzadas del Sistema Funciones Avanzadas del Sistema Su sistema tiene un modo que le permite guardar su remoto separado de las llaves del vehiculo. Esta configuracion requiere mano de obra adicional. Para mas detalles, por favor consulte a su instalador. El modo AntiAsalto le permite desactivar su vehiculo despues de que un ladron se haya marchado con su

propiedad. Si usted es asaltado y todavía tiene su remoto, usted puede presionar el botón IV de pánico durante 4 segundos. Page 34 Diagnostico de Alarma Mientras la alarma este armada, el LED destellara lentamente. Mientras la sirena suena, el LED indicara la zona especifica que se acciono.
